Dated Tonk Raj, the 9th March, 1941.

YOUR HIGHNESS,

to the year 1939—40.

I have the honour to remain,

Vice President, State Council, Tonk.

REPORT ON THE ADMINISTRATION OF THE TONK STATE FOR THE YEAR 1347 FASLI. (1939-40)

CHAPTER—I.

GENERAL.

THE founder of the State was Nawab Amir Khan, an Afghan of the Buner Tribe known as Salarzai. Early in the 17th Century one Taleh Khan left his home in the Buner country and took service in Rohilkhand with Ali Mohammad Khan, a Rohila of distinction. His son, Hayat Khan, acquired considerable land in the Moradabad district and was the father of Amir Khan. The latter was born in 1758 and when 20 years of age, left his home to carve out a career for himself. He first offered his services to De Boigne, who was recruiting for Sindhia's Army but De Boigne considered that he was too young and inexperienced and declined to enlist him. For the next ten years he served as a mercenary leader wherever he could find lucrative employment, and in 1798 was advanced to the command of a large army in the service of Jaswant Rao Holkar. He fought with distinction in the campaign against Sindhia and the British, and took no small part in levying the indemnities imposed on Rajputana and Malwa. Holkar appreciated his fighting qualities and, in order to have his services permanently at his command, agreed to share all conquered territories with him. Sironj was accordingly made over to Nawab Amir Khan by Holkar in 1798, and Tonk and Pirawa fell to his share in 1806, Nimbahera was added to his territory in 1809, and Chhabra in 1816. On entry of the British into Malwa, Nawab Amir Khan made overtures to them, and they offered to guarantee him all the lands he had been granted by Holkar, on condition that he abandoned the predatory system he had adopted, disbanded his army and surrendered his artillery, with the exception of 40 guns to the British at a valuation. Nawab Amir-ud-Daula Bahadur agreed to these proposals and they were embodied in a treaty in 1817. To the territories thus granted, *i.e.*, the five parganas already mentioned, the Fort and pargana of Rampura, now known as Aligarh, were added by the British Government and a sum of three Lakhs was also given to him to enable him to finance the State. He administered the State till his death in 1834, when he was succeeded by his son, Nawab Wazir Mohammad Khan, Wazir-ud-Daula. Nawab Wazir-ud-Daula did much to consolidate the State, and during the mutiny of 1857, distinguished himself by holding the Tonk Fort with a small garrison against the

combined forces of the Nawab of Banda and Tantia Topi. In acknowledgment of his services his salute was raised from 15 to 17 guns, and he received a Sanad guaranteeing the succession of his family, according to Mohammadan Law, in the event of failure of natural heirs. He died in 1864 and was succeeded by his son Nawab Mohammad Ali Khan, who was deposed by the British Government in 1867 and exiled to Benaras, where he died in 1895. His eldest son, Nawab Hafiz Mohammad Ibrahim Ali Khan, succeeded him in 1867, ruled the State for 63 years and died at the age of 83 years on June 1930. His late Highness' reign witnessed many changes, and as a mark of respect and esteem in which he was held by the British Government and as a tribute to his loyalty and character he was granted the titles of G.C.S.I., and G.C.I.E. He was succeeded by his eldest surviving son, Nawab Hafiz Mohammad Saadat Ali Khan Bahadur, the present Nawab, who was granted the title of G.C.I.E., on 1st January 1934. His full title is His Highness Said-ud-Daula Wazir-ul-Mulk Nawab Hafiz Sir 'Mohammad Saadat Ali Khan Bahadur Saulat-i-Jang, G.C.I.E.

Situation & area

2. Tonk State is situated partly in Rajputana and partly in Central India and consists of six parganas which are separated from each other by distances varying 22 to 250 miles, a factor which is of considerable disadvantage so far as administration is concerned. The parganas in Rajputana are Tonk and Aligarh, lying between latitude $25^{\circ}45'$ and $26^{\circ}30'$ and longitude $75^{\circ}30'$ and $76^{\circ}15'$ bounded on the North East and West by Jaipur State, and by Jaipur and Bundi State on the South; and Nimbahera a mass of island territory surrounded by and interlaced in Mewar territory lying between latitude 25° and $24^{\circ}15'$ and longitude $74^{\circ}15'$ and 75° . The parganas in Central India are Chhabra, Sironj and Pirawa. The Chhabra pargana lies within latitude $24^{\circ}30'$ and 25° longitude $76^{\circ}30'$ and $77^{\circ}15'$, and is surrounded by Gwalior and Kotah States. The Sironj pargana, which is the largest in the State, lies between the latitude $23^{\circ}45'$ and $24^{\circ}30'$ and longitude $77^{\circ}15'$ and 78° and is surrounded by Gwalior State on the East, West and North and by Bhopal State on the South. The Pirawa pargana lies between latitude 24° and $24^{\circ}30'$ and longitude $75^{\circ}45'$ and $76^{\circ}15'$ and is surrounded by Indore on the North, Gwalior on the South and East, and Jhalawar and Indore on the West.

The State has a total area of 2,553 square miles.

Physical Features.

3. Owing to the fact that the different parts of the State are separated by such distances the physical features vary considerably. The country round Tonk is flat at a general elevation of about 900 feet, with outcrops of rocky hills and traversed by the Banas river. The soil is somewhat sandy and sub-soil water is limited. The two parganas of Nimbahera and Pirawa are on the Northern edge of the Malwa plateau and the soil is chiefly black cotton. The Chhabra and Sironj parganas are geographically in Central India and the soil is mainly black cotton. They contain large tracts of jungles in which Tiger, Panther, Bear, Sambhar and Cheetal abound.

Climate & Rainfall.

4. The climate of Tonk is dry and healthy, though very hot in summer, temperatures of 115° and even 118° being not uncommon. In winter the temperature rarely falls below 40° . The climate of the other parganas is not so extreme.

The average rainfall in Tonk is 22·86 inches, Aligarh 22·88, Chhabra 29·43, Sironj 41·42, Pirawa 36·18 and Nimbahera 24·44 inches.

The rainfall at Tonk from 1st April 1939 to 31st March 1940, was 12·88 inches; Aligarh 12·77; Chhabra 43·84; Sironj 36·7; Pirawa 27·8 and Nimbahera 26·34.

5. The outturn of the Rabi crop was fairly good in almost all the parganas of the State. Season & crops.

The Kharif crop was satisfactory in all the parganas.

The price of foodgrains was not steady, there being remarkable variation as compared with last year.

6. The population of the State according to the Census of 1931, was 3,17,360 (1,64,401 males and 1,52,959 females) as compared with 2,87,898 in 1921. This amounted to an increase of 10%. Of the total population, 2,62,675 or 82·76% are Hindus; 44,234 or 13·93% Mohammedans and 10,451 or 3·29% other religions. Population.

7. The state has a coin of its own, called ' Chanwarshahi ' which is current only in Tonk and Aligarh parganas. It is a silver coin weighing 90 ruttis and containing 81 ruttis of silver, with small pieces and copper pices. Currency.

The exchange underwent seasonal fluctuations as usual and ordinarily it would not have been necessary to exercise any artificial control.

8. The official year in Tonk begins on 1st November and ends on 31st October. Official year.

9. The ordinary and extra-ordinary revenue and expenditure for the year, compared with those for 1346 Fasli, were as follows :— Annual revenue & expenditure.

CHAPTER—IV.

FINANCE.

38. Lt. Col. G. W. Anderson, C.I.E., continued as Finance Member. Personnel.

K. S. Shah Mohammad the Personal Assistant to Finance Member, resigned in November, 1939, and his work was entrusted to Mr. Shamsuddin Ahmad, B.A., the Finance Assistant in-charge Treasury and Finance Sections who carried it on till May, 1940.

The Finance Department, which appeared to be top heavy was then reorganised. The post of Personal Assistant was abolished and the acting arrangements, by which the Finance Assistant was holding charge of Personal Assistant's duties in addition to his own, were confirmed, his designation being changed to Assistant Finance Member. He continued to exercise general supervision over the Audit and Pay section as well. The post of Sarishtedar which had been kept vacant for some time was also abolished.

Lala Sri Mohan Lal, incharge of Audit and Pay Section died in April, 1940. The separation of Audit and Pay Disbursement sections which had long been delayed was now carried out. The post of Audit Assistant was abolished, and two new posts—one of Chief Auditor and the other of Bakshi were created instead. Mr. Fazlur Rehman, a retired P. W. D. Accountant of U. P. was appointed as chief Auditor and placed incharge of the Audit Section, while Mr. Fateh Mal Superintendent, Audit Section was also placed in sole charge of the Pay section.

39. Local Audit was undertaken in the selected offices of the paraganas and Tonk Sadar. Audits.

40. The year opened with a balance of Rs 5,91,208/- against the opening Balance of Rs 4,30,614/- at the beginning of 1346 Fasli. The total receipts and disbursements during the year were Rs 38,66,825/- and Rs 37,20,049/- respectively compared with Rs 30,19,706/- and Rs 28,59,163/- in the preceding year, the necessary details being as follows :—

<i>Receipts</i>		1346 FASLI.	1347 FASLI.
Ordinary.		21,76,304	23,09,756
Extra-ordinary.		8,43,402	15,57,069

Extra-ordinary.		7,55,279	13,55,587
TOTAL.		28,59,163	37,20,049

As loans were drawn to meet the heavy demand of hundies for import of grain and other commodities and to finance schemes of famine relief, for which un-spent balances of irrigation and other relief works were also carried over from the past year as deposits, the extra-ordinary receipts shown an abnormal increase as compared with last year, there being a similar rise in extra-ordinary expenditure due to heavy disbursements on famine relief measures and payments of Chanwershahi debts

as will be further shown in the following paragraphs. The closing balance at the end of the year was Rs 7,38,127/- against Rs 5,91,208/- for last year.

The monsoon of 1346 Fasli was also a poor one and consequently both the Kharif and Rabi crops in Tonk and Aligarh as well as Nimba-hera suffered severely. This had a very adverse effect on the land revenue and customs receipts of these parganas.

Currency Policy.

41. As already shown in the above paragraph, the rush on Kaldar for hundies in the Treasury was heavier than in the last year.

A loan of four lacs was therefore taken, which not only enabled the State to meet this heavy demand for Kaldars and finance urgent schemes of famine relief, but also helped the Treasury in controlling the exchange rate, and keeping this year's average below 135, contrary to misgivings expressed in last year's report. This stabilization of the exchange rate had a whole-some effect on general trade in such hard times.

Redemption of debts.

42. When the exchange rate went down, all the debts of the Rutlam Firm which were in Kaldars were repaid in Chanwershai coin at an agreed rate. With the loan of the other four lacs, the debt position at the beginning of 1347 and its close is given below:—

49. The liquor contract of Aligarh Pargana remained under Bhatti System under which the contractor paid a fixed sum to the State in the form of license fee.

In Tonk, Sironj, Chhabra, Pirawa and Nimbahera Parganas the Madras System was in force under which individual shops for retail sale are auctioned and the licensees are supplied with liquor from the State godowns established in each Pargana at the warehouse rate which includes the cost price of liquor and an excise duty.

The Madras System is without doubt preferable to the old Farming System but its success depends to an extent on the co-operation of the neighbouring States otherwise the State introducing and enforcing the Madras System is at a great disadvantage compared with States who have the Farming System or lax supervision. This question has now become so serious that it is doubtful if this State can continue the Madras System in Nimbahera.

The following table shows the rate of duty and the retail prices in the Parganas of Tonk, Sironj, Pirawa, Chhabra and Nimbahera in 1347 Fasli :—

75. 21 appeals were pending in the court of the District Judge at the close of the preceding year, 293 were instituted during the year under report and 294 were disposed of leaving a balance of 20. The judgments of Lower courts were upheld in 125, reversed in 156 and amended in 11; while 2 were remanded. As compared with the preceding year institutions decreased from 330 to 293, and disposals from 350 to 294. In the Chief Court the total number of appeals pending at the beginning of the year was 55, 192 were instituted during the year 207 were disposed of leaving a balance of 40. The judgments of lower courts were upheld in 140, reversed in 43 and amended in 7, while orders of remand were passed in 10, and compromises effected in 7. The appellate work of both the courts remained fairly upto-date.

Registration.

76. The total number of deeds registered during the year was 528

and their aggregate value Rs 1,97,865/7/- as against Rs 2,41,265/1/6 in the preceding year. Registration fees amounted to Rs 2,123/4/- as compared with Rs 2,612/4/- in the preceding year. Out of these Rs 760/- were paid to clerks as salaries or allowances and the balance credited to the State Treasury. There were 2 deeds in the Tonk Pargana of which the registration was refused. The State has got a Registration Act of its own which has been prepared on the lines of the British India Act.

77. The British India Civil Procedure Code is followed in the State subject to a few limitations under section 122 of the Code. Miscellaneous.

CHAPTER—VI.

DEVELOPMENT DEPARTMENT.

Personnel.

78. During the year under report Khan Bahadur Maulvi Mohammad Maula Baksh, M.A. (Oxon), F.L.S., continued to be the Development Member and held charge of the following Departments. His health broke down in the middle of the year in consequence of continuous working hard for the last 3 years without any recess or respite he was away on leave for 5½ months and the Revenue Member looked after the Development Department in addition to his own Department.

Irrigation works were pushed on very vigorously during the first half of the year. Excepting that no unusual or significant developments were effected; only works started during the past years were continued and consolidated.

1. Education Department.
2. Forest Department.
3. Industries.
4. Agriculture and Rural Uplift.

Agriculture.

79. During the year under report also Agricultural Department could not be properly organised. The results of the two Agricultural Farms at Tonk and Sironj were run under the direct control of the Development Department.

The student who was pursuing agricultural course at Allahabad University College and awarded scholarship last year from the State came out successful and was absorbed in the Department towards the close of the year.

Agricultural Farm
Tonk.

80. The rains were scanty and fitful, supply of water was reduced in consequence of the two consecutive preceding years of drought and optimum temperature was not obtained, crops could not be grown on a regular plan under the above precarious conditions and figures of their yield etc. could not be obtained to serve as reliable data for calculation or comparison in future. Results have, however, been recorded though not with much precision, with the idea that they may serve merely as indicators for similar periods of unfavourable factors.

The following crops have been grown on the Tonk Farm this year:-

KHARIF :—Cotton, Jowar, Bajra, Maize, Arhar, Guar, Tobacco and San.

RABI :— Wheat, Barley, Gram, Potatoes and Tomatoes.

Potatoes.
Vegetables.

82. The State Geologist appointed last year to explore and report upon the mineral resources of the State toured in the remaining three districts of Aligarh, Chhabra and Pirawa and presented reports. Mining.

Due to unfavourable war conditions Mica Mining received a set back and was much restricted as export of Mica was very much reduced and there was practically no demand for it in the market. As in the past the industry, however, provided livelihood to thousands of famine stricken people— in particular to the old Pardha-nashin females of Military and Police Sepoys and of other servants of inferior service as well as to many families of other non-working classes.

- (i) During the year 1347 Fasli no Certificate of Approval was issued.

Two holders of Certificate of Approval Messrs. Labhchand & Co. of Calcutta and Seth Murlidhar of Basau (Jaipur State) worked under Prospecting Licenses or Mining leases.

- (ii) Mica was worked at 7 places.
- (iii) Total raw Mica excavated was 17,170 Maunds.
- (iv) Total quantity of cut Mica obtained from above was 3,886 maunds.
- (v) Estimated total value of the above was Rs 69,560/-.
- (vi) Total quantity of cut Mica obtained as State share was 46 Maunds.
- (vii) Total value of the above actually received in the State amounted to Rs 7,800/-.

- (x) Amount received in State as land rent and other fees etc. amounted to Rs 575/-.
- (xi) Total amount received in State i. e. sum total of (vii) and (x) above was Rs 8,375/-.

Bidi manufacture.

83. As before the Bidi manufacturing industry also helped to provide work to the poor during the famine conditions prevailing in Tonk City during the first half of the year.

The following figures show the results of this industry during the year under report :—

- (i) Amount of lease money realised by the State during the year was Rs 9,156/-.
- (ii) Customs duty realised on tobacco and other material required for Bidi manufacture during the year was Rs 506/-.
- (iii) Total income derived by the State during the year Rs 9662/-
- (iv) Total quantity of Bidis manufactured during the year in bundles of 25 Bidis each 15,69,297.
- (v) Sale value of above stock at $2\frac{1}{2}$ pice per bundle Rs 61,300/-.
- (iv) Total daily labour engaged in Bidi manufacture 247.
- (vii) Total labour engaged in Bidi manufacture during the year 90,155.
- (viii) Total amount earned by the above labour during the year Rs 14,103/-.

Weaving.

84. With the object to teach weaving by means of improved looms (Fly shuttle looms) to the poor and unemployed classes in Tonk City and thereby to enable them to earn livelihood continued to work during the year under report.

Many important techniques of dyeing and weaving attractive designs were solved and the public was attracted to the fabrics manufactured.

The following figures show the result of working during the year as compared with the last year :—

Total cloth manufactured worth Rs 3,580/12/9 against worth Rs 2,601/- manufactured last year.

Cloth sold to the Police, Army, other departments and public worth Rs 2,463/4/3 against Rs 2,072/10/- of the last year.

Cloth remained unsold at the close of the year worth Rs 1,117/8/6 against 528/5/3 of the last year.

Iron Foundry.

85. By giving some concessions a work man from Ahmadabad brought over his machinery to Tonk and established an Iron Foundry. A State loan of Rs 1,000/- B. C. on easy terms for repayment was advanced to help him. He proved to be useful in manufacturing and repairing broken parts of engines working in the Electric and Motor Departments of the State.

CHAPTER VII.

POLICE.

86. Mr. J. Lindenboom held administrative charge of the State Police throughout the year. Introductory.

SUPERINTENDENTS :— Perganas Tonk and Aligarh, M. Abdul Qadir Khan Superintendent Police held charge of Perganas from the 1st November to 31st May 1940, when he was relieved by M. Amiruddin a retired Inspector of the United Provinces Police, who held charge till the 31st of October.

(N. B.— This Officer resigned the State Service on the 9th December 1940.)

Perganas Sironj and Chhabra :— Munshi Ahmad Ali held charge from the commencement of the year till the 31st May, and was relieved by M. Abdul Qadir Khan on transfer from Tonk, who held charge for the remainder of the year.

Perganas Nimbahera and Pirawa:— M. Waliullah Khan held charge of the Perganas from the 1st November to the 31st May, when he proceeded on Leave Preparatory to Retirement, being relieved by Syed Ahmad Ali Superintendent Police, from Sironj.

INSPECTORS :— There has been no change in the posting of Circle Inspectors throughout the year. The following officers held charge :—

TONK & ALIGARH.— Circle Inspector, Hisamuddin,
Sironj.—Circle Inspector, Nasrullah Khan,
Lateri.— Circle Inspector, Zahurullah Khan,
Chhabra.— Circle Inspector, Farhatullah,
Pirawa.— Circle Inspector, Khan Sahib Mohd. Nasir Khan and,
Nimbahera.— Circle Inspector, Mahmood Ali Khan.

87. There has been no change in the strength of the force, throughout the year; the allocation now consists of:- Strength of Force.

Superintendents	3,
Inspectors	8,
Sub-Inspectors	17,
Head-Constables	80
Constables	720

The number of Police Stations is 32.

AGRICULTURAL CONDITION:—After two years of almost complete failure of the monsoon in the Parganas of Tonk and Aligarh, we had a fairly satisfactory monsoon, which set in just in time to enable a Kharif Crop to be sown. Unfortunately the monsoon was a weak one giving only one fall of rain in September and the ensuing Rabi Crop is likely to be below average.

Owing to famine conditions and the complete absence of fodder for cattle, these died in thousands and surviving cattle, have consequently advanced very much in value, which has been responsible for a good deal of cattle theft and cattle blackmail.

The present system of paying chaukidars by cultivators, leads to the suppression of reports of cattle theft, as the local chaukidar being personally responsible for compensating owners of cattle stolen suppresses the report in the hope of being able to get into touch with the cattle thieves, and settle the matter by payment of blackmail.

Two years ago, Mr. J. Lindenboom put up a scheme for the introduction of a regular chaukidari force in the parganas of Nimbahera and Pirawa, which however could not be considered on account of financial stringency, owing to the famine conditions in the parganas of Tonk and Aligarh. He will again move consideration of the scheme in 1348 Fasli.

POLITICAL AND LABOUR :—As in previous years the State has been completely free from political and labour trouble. The distances separating the widely detached parganas which go to form the State while a great hinderance to efficient administration also detract from the easy decimation of political propaganda. The easy excess of the general public to His Highness by people with real or fancied grievances is also a great factor in the political peace, and I can not envisage a serious deterioration in the present happy state of affairs, in the near future. In this respect we appear to be very much more fortunate than a great number of other States in Rajputana.

Cognizable Crimes
General remarks &
Results.

88. 1667 cases of cognizable crimes were recorded during the year against 1673 cases in the previous year, an insignificant decrease of 6 cases.

The principal variations, under the more important heads of cognizable crime are :—

- | | | | | |
|--------------------------|-----|-----|-----|----------------|
| 1. Murder decreased from | 8 | to | 6 | in 1347 Fasli. |
| 2. Dakaity rose | „ | 10 | „ | 26 „ „ |
| 3. Robberies rose | 21 | „ | 25 | „ „ |
| 4. Burglary decreased „ | 690 | „ | 617 | „ „ |
| 5. Theft increased | „ | 597 | „ | 632 „ „ |

The increase under this last head is more than accounted by an increase of 52 cases of cattle theft, mainly in the Tonk and Aligarh Parganas which show a rise of 26 cases over the preceding year. As I have remarked above, the price of plough bullocks has risen enormously on account of an ample fodder season following two years of drought, and the additional compensation to be derived from a successful theft, offers a most serious temptation to the Mina and Bhil castes, in which fraternities most of our cattle thieves and “ Thangdars ” are to be found.

No cases of rioting were recorded during the year.

Two cases of counterfeiting coin were recorded during the year against one in the preceding year. One of the cases was expunged and the other convicted.

Below is a comparative statement of the volume of cognizable crime in the six parganas of the state over the last five years.

Parganas.	1343 Fasli.	1344 Fasli.	1345 Fasli.	1346 Fasli.	1347 Fasli.
Tonk.	600	663	553	619	527
Aligarh.	60	69	26	63	73
Sironj.	412	294	365	471	519
Chhabra.	152	117	133	110	125
Nimbahera.	255	260	237	237	292
Pirawa.	175	233	243	173	131
TOTAL.	1,654	1,636	1,557	1,673	1,667

The Parganas of Sironj and Nimbahera show the most marked increases of 48 and 55 cases respectively. Sironj was also commented as adversely in the previous year. The marked increase at Nimbahera is due entirely to poor supervision on the part of the Superintendent and the Inspector Munshi Mahmood Ali Khan who lacks personality, and has very poor control over his subordinates. Pirawa again shows a marked decrease over the previous years' figures, and it is in a great measure due to the consistent and efficient supervision of the Inspector Khan Sahib M. Mohammad Nasir Khan.

With a balance of 152 cases pending investigation from the previous year, the police had to deal with a total volume of 1819 cases of cognisable crime.

Of the total of 1819 cases, investigation was carried out in 1746 cases. In only 73 cases was investigation refused. In most of the rural police stations, work is very light, and insistance was made on station officers, carrying out investigations, even in minor offences, so that they may obtain a better knowledge of the countryside, and move about their circles. One hundred and thirteen cases were expunged after investigation. Of the 1633 true cases, remaining for disposal 766 cases, involving 1156 persons were sent up for trial. At the close of the year, seventy two cases remained pending investigation and one hundred and sixty eight remained pending trial. This last figure records, an unwelcome increase of 56 cases pending disposal in courts.

In addition to the above, the police had also to deal with 482 cases of non-cognisable crime and crime under miscellaneous acts.

In all a total of 1230 cases was sent up for trial, involving 1829 accused persons (766 cognisable cases and 464 non-cognisable cases). An improvement in the number of cases challaned to court is recorded for the second year in succession.

The figures for the last two years being 855 cases, 1074 cases and for the year under report 1230 cases.

Of the 1230 cases, sent up for trial 672 cases, involving 888 persons were convicted, 196 cases were discharged or acquitted, 66 cases were

compounded, 12 cases were transferred to other states and 284 cases remained pending disposal at the end of the year, which includes 168 cognisable cases already commented upon.

The proportion of cognisable cases worked out and challaned to court, compared with the total volume of cognisable crime is good, though the number of acquittals working out at 18% of challans is still unfavourably high, and is due in a great measure to inefficient preparation of cases for court, and the inordinate time that has been taken in some courts in the disposal of cases.

The percentage of cases convicted to prosecuted, working out at 51% is unsatisfactory. A number of causes are responsible. A number of officers, it is sorry to record, are still under the impression that their responsibility ends with the submission of a charge sheet, and their subsequent co-operation with the prosecuting staff leaves much to be desired. The inordinate delays in disposal of criminal cases in some courts, particularly in Tonk itself is an unsatisfactory feature of the Judicial Administration. The police and witnesses lose all interest, when they have to hang round courts, for long hours, on the many days, when postponements are directed.

Conviction of
Persons.

89. The number of persons arrested in conviction with crime during the year was 1983 against 1827 in the preceding year and 1673 in the year preceding that. Of the persons arrested 1829 were sent up to court for prosecution, 88 were released U/S 169 C. P. C. Investigations were still continuing in the case of 25 persons at the end of the year, 36 persons arrested in other States were awaiting extradition at the end of the year, two died before challan, and three escaped from police custody.

Of the 1829 persons prosecuted, 888 were convicted, 359 were acquitted, 128 were discharged after compounding of their cases, 17 were extradited to other states, and 429 persons were pending trial at the close of the year, 5 died during the pendency of their cases in court, and three escaped from the Judicial lock-up.

The figures show a marked improvement on the previous years' figures when 760 persons were convicted and 394 were acquitted.

It is unfortunate that it is to be recorded for the second year in succession, the disproportionate number of persons awaiting trial at the end of the year is 429. The figure is almost a hundred in excess of number awaiting trial at the end of the previous year.

Property Stolen &
Recovered.

90. Property worth Rs 67,313/12/7 was stolen against a total of Rs 61,252/12/1 in the preceding year. The statement attached to the report, gives details of the property stolen and recovered in each pargana. Recoveries amounted to Rs 22,623/6/4 giving a percentage of 32% of property stolen. The figure shows a decrease of 7% on the previous years' figures. The only Pargana to show an increase over last years' figures was, Tonk, which however still lags far behind the other Parganas.

Non-cognisable
Crime.

91. 398 cases of non-cognisable crime and crime under miscellaneous Acts, were recorded during the year, against 420 in the preceding

year. The incidence of non-cognisable crime is discussed in the succeeding paras.

Section 182 I.P.C.; "Recording false report of crime" rose from 24 cases to 28. The increase is negligible, and the small volume of cases under this section which have to be referred to courts for prosecution of the complainants is, in itself, a satisfactory feature.

Section 4 Opium Act.; Have dropped from 23 to 11 cases. An unsatisfactory record, indicating as upineness on the part of the police to co-operate fully with the excise staff, in arresting illicit and contraband opium. The remedy lies in the prompt grant of and liberal rewards to the subordinate police, who are the principal people concerned.

Section 188 I.P.C.; "Disobedience to lawfull orders" have risen from 110 cases to 160 cases, or just double the figure for 1345 Fasli. The cases originate mainly out of the contravention of orders by Minas and other criminal tribes. Owing to famine conditions in the Tonk and Aligarh Parganas, the Minas resident there have shown a marked resistance to the orders restricting their movements. These restrictions were considerably relaxed during the year, enabling the Minas to move about more freely with their cattle, but the concessions were considerably abused.

92. 20 cases against 26 in the preceding year. The remark about Excise Act. the want of co-operation with the Excise Department in the matter of illicit and contraband opium, applies here too. With the 4 cases remaining for disposal from the preceding year, the courts had to deal with 23 cases resulting in 15 convictions, 5 acquittals and 3 are still pending decision. One case was not sent for trial.

Motor Act :- Fees recovered for the registration of Motor Vehicles amounted to Rs 1,491/4/-.

Ten cases under the Motor Act were sent up for trial during the year, resulting in 9 convictions and one acquittal.

Section 107 C.P.C.; "Action likely to endanger the public tranquility" have dropped from 41 to 21 cases, of which 16 were recorded in Tonk and 5 in Sironj Towns. Action in these two towns is very often imparative, to control the many warring factions. The introduction of the Gunda Act, has had a very salutary effect on the *badmashes*.

Preventive Action.; Under Section 109 C.P.C. 16 cases as in the previous year, were recorded from the parganas of Tonk 6, Nimbahera 6 and Sironj 4. No cases were recorded from the Parganas of Pirawa, Chhabra and Aligarh. More intensive action under this section is necessary, particularly in Sironj, and Pirawa.

Section 110 C.P.C.; 6 cases against 13 in the previous year. The cases were as reported from Nimbahera 1, Pirawa 2, Sironj 1 and Chhabra 2. No action was taken in the Perganas of Tonk and Aligarh,—a regrettable feature.

Gunda Act ; This Act was introduced during the year and its provisions only extend to the towns of Tonk and Sironj. The publication of the act, had a most salutary effect, on the bad characters of the two

towns. The penal provisions, for disregarding orders of expulsion are however weak and amendments are necessary.

Three cases were run in, of which two were convicted and one was acquitted.

Criminal Tribes; The full report on the criminal tribes is submitted separately. The tribes settled in the State are :- *Naia Bashi Minas, Moghias, Sansiahs, Kanjars and Baories*.

Sansiahs, Naia Bashi Minas, and Kanjars are settled in the Tonk and Aligarh Parganas.

The Naia Bashi Minas, are expert burglars, and cattle thieves and are a continual menace to all law abiding residents. The majority of the village chaukidars are drawn from this tribe, and are thoroughly untrust-worthy.

The Sansiahs are settled in the village of Ahmadpura, and have shown little inclination to settle down as cultivators. Their chief sources of livelihood are the breeding of goats and money lending.

Moghias:- are settled in Yusufpur, Sironj Pargana. This tribe has settled down to cultivation, and have earned a good reputation as cultivators. The tribe has given no trouble over a long period of years, and supervision, has been relaxed with no deleterious results.

It was endeavoured to establish a school for the children of this tribe numbering about sixty, but the elders of the tribe are against it, and no headway is possible. Efforts are being continued to persuade them to accept the suggestion.

Baories:- A very few settled in the Nimbahera Pargana. No trouble is experienced from them.

Absconders:- The names of 190 absconders were borne on the records at the commencement of the year, subdivided as below :-

Absconders Class A	172.
Absconders Class B	18.

Of the total of 190 absconders, 87 were residents of the State and 92 were residents of adjacent States, while 11 were members of Wandering Criminal Tribes.

The names of 86 persons, were added to the records during the year of whom 58 were residents of the State. 71 names were deleted from the registers during the year, following their arrest, or were expunged, when convictions were no longer likely to be obtained against them.

At the close of the year 205 persons' names were borne on the records subdivided as below :—

Class A	186
Class B	19

Finger Print Work.

93. 138 Search Slips were issued during the year, and circulated to Bureaux concerned. Fifty Slips were returned as traced, with the previous convictions. Of the fifty traced slips, no less than 22 were members of wandering criminal tribes.

Finger Print Impressions' Slips of 423 persons were recorded during the year, against 378 persons in the previous year.

A number of constables were trained during the year as Qualified Impression Takers.

The Sub-Inspector In-charge of the Finger Print Section, was summoned as an Expert Witness to Civil Courts, in six civil cases during the year.

94. A sum of Rs 400/- was sanctioned for rewards to Subordinate Police during the year, and a further sum of Rs 400/- was transferred to this head from savings under other budget grants. Rewards.

95 officers and men were granted monetary rewards during the year, and in the case of a number of constables' grade, promotions were sanctioned for good and meritorious work.

95. 431 petty punishments, by fine, extra drill or reduction were inflicted during the year on subordinate officers and men. Punishments.

A sum of Rs 695/12/- was recovered by way of fines during the year and the State had to inflict a number of severe punishments on Sub-Inspectors during the year for negligence or incompetence in connection with their official work.

96. Sub-Inspector Asad Wahab, who was deputed to Ajmer for training in Reserve Work, returned in the month of January, and brought back a most excellent certificate of work while under training. He has been placed in charge of the Reserve Lines, and a noticeable improvement in turn out and discipline has been achieved. Recruits at Head Quarters now receive a proper training. Discipline of Force.

Training at the outlying Parganas, still leaves much to be desired and it is hoped that it will be found feasible to bring in a number of the younger men from the Parganas for a course of six months' training. As it costs about Rs 16/- per man for the return journey from Sironj, and other Parganas very little less, the cost of bringing in men for training here is almost prohibitive. Another draw back is the want of competent drill instructors.

Gradually it is hoped to remove the difficulties and improve the standard at outlying parganas.

97. Towards the close of the year a project was worked out for a reduction of the Army, and the establishment in their place of a company of Military Police, to be placed under the orders of the I. G. P. Barracks, adjacent to the Police Lines, are now in course of construction, and as soon as these are ready, one hundred men selected from the present army will be taken over. Four men have been selected and sent to neemuch for training as instructors. It will probably be some time before the new company will be armed as required, but a beginning will be made in giving them instructions in the 303r ifles and 410 muskets with which it is hoped to arm them. Conclusion..

It has not been possible to proceed with the building of P. S. Bari in the Nimbahera Pargana, as the money was reallocated for the Building of the new barracks in the Lines.

Superintendent of Police M. Waliullah Khan, retired from the service after a long and distinguished career of 41 years in the service of the State. In his place, Munshi Amiruddin, a retired Prosecuting Inspector of the U. P. Police was employed. The selection was a most unfortunate one, and after a particularly unfortunate interview with His Highness, he was compelled to send in his papers, and leave the State Service, just six months after his employment.

With one or two exceptions, It is pleasing to record that the state of supervision by Superintendents and Inspectors over their subordinates was more satisfactory. The following officers have done particularly well during the year :—

	<i>Superintendent Police,</i>	M. Abdul Qadir Khan,
	„	„ M. Ahmad Ali,
<i>Inspector</i>	„	Khan Sahib, M. Mohd. Nasir Khan, of Pirawa.

The Prosecuting Inspector M. Maulvi Mustafa, has again put in a very useful year's work.

Sub-Inspector Yunus Beg B.A. has been sent for a course of law training to the Lucknow University, with the intention of eventually employing him as a Public Prosecutor. He already has a number of years' service as a police officer, and should be most useful after qualifying.

CHAPTER VIII.

99. The total expenditure on the Army was Rs 1,92,472/8/9 compared with Rs 1,90,498/10/6 in the previous year. Expenditure of Army.

100. The Sepoys of the " Hasny " Paltan are armed with old and useless guns. The cavalry use their own weapons, which are older still. Arms of the forces.

The State Army is employed chiefly as guards.

CHAPTER XI.

FOREST DEPARTMENT.

CHAPTER I.

Constitution of
Forests.

134. Demarcation in Chhabra Range has been practically complete. Pending the concurrence of the Revenue authorities (who may require some alterations in the demarcated areas) figures have been only provisionally computed. According to these figures total area demarcated worked out to 73 square miles and total length of lines cut 281 miles in Chhabra Range.

In Lateri and Sironj Ranges the work of demarcation has been proceeded with. Forests in both these Ranges adjoin those of other States *i. e.* Bhopal and Gwalior and no boundary lines could be cut without supervision and guidance by the Revenue Officials, which has been arranged for during the year, and some length of external lines has also been cut.

Demarcation.

135. 345 Miles of demarcation lines have been cut, out of which 174 miles were surveyed in Ranges Lateri and Sironj at the cost of Rs 1,472/- against 290 miles of demarcation lines cut and surveyed at the cost of Rs 997/- of the previous year.

The total expenditure on demarcation work together with the pays of the demarcation staff amounted to Rs 3,684/5/3 compared with Rs 2,554/3/3 of the previous year.

CHAPTER II.

MANAGEMENT OF THE STATE FORESTS.

Communication and
buildings.

136. Four Forest-Guard quarters in Ranges Lateri and Sironj (which could not be completed in 1346 Fasli on account of earlier monsoons) were completed during the year, at the cost of Rs 425/-.

Protection of
Forests.

137. The number of cases pending at the commencement of the year was 487 and 595 fresh cases were reported during the year, making a total of 1,082; of these 580 cases were disposed of per details leaving a balance of 502 cases pending at the close of the year. Disposal of cases have been a bit slow and officials concerned have been asked to explain.

(i) 479 cases were compounded for Rs 2,140/- against 275 cases with compounding fees of Rs 1,552/- of the previous year. Average incidence per case works out at Rs 4/8/- against Rs 5/8/7 of the last year. The accused mostly belonged to cultivation class and they have been leniently dealt with.

(ii) 85 cases were thrown out as compared with 43 cases in the previous year, and care is being taken not to molest people for trifling matters.

(iii) 16 cases of heinous nature were challaned in the criminal courts as compared with 5 cases in the previous year and the accused were properly punished in all the cases.

The following table shows the progress of the disposal percentage of cases in different Ranges as compared with the previous year.

RANGE.	1346 FASLI.	1347 FASLI.
Sadar.	40.91	44.66
Chhabra.	36.95	67.67
Sironj.	48.36	53.46
Lateri.	62.72	84.15
Pirawa.	81.25	53.33
Nimbahera.	100.00	75.00

The disposal in Pirawa Range has been poor and in Sadar Tonk worst, much improvement has been effected in this respect in Lateri, Nimbahera and Chhabra Ranges—Lateri topping them all.

138. Altogether 9 cases of fire covering an area of 1,434 Bighas occurred during the year, against 29 cases with the burnt area of 24,538 Bighas of the previous year. Less number of fires is due to more vigilance on the part of the protective staff. Protection from fire.

The total loss estimated to felled timber and grass from these fires in Coupe Gorla at Chhabra and another in Bir Semli Khan at Pirawa amounted to Rs 277/2/6. No offender in any of these fires could be traced.

139. Out of the total area under the Forest Department, an area of 3,710 Bighas of coupes in Ranges Lateri and Chhabra was entirely closed to grazing throughout the year, as against 1,972 Bighas of coupe areas of the previous year. The closed area increased as the number of felled coupes increased during the year. Protection from cattle.

The remaining area was open to grazing for all animals except the camels throughout the year.

The amount of grazing revenue collected during the year was Rs 20,899/- against Rs 22,466/- of the previous year. Due to famine conditions prevailing in Tonk Pargana less grazing revenue was realised in Range Sadar which accounts for the difference of Rs 2,780/- as compared with the previous year. As a matter of fact there was an increase of Rs 1,663/- in Range Chhabra on account of the State Forest Officer's personal checking.

The total number of cattle which were allowed to graze in the Forest was 1,05,535 against 1,03,383 of the previous year.

SYLVICULTURE.

140. In the felled coupe areas, regeneration from coppice shoots has been quite satisfactory. The only damage worth mentioning to the coppice shoots is the usual attack by teak leaf defoliator. Natural coppice regeneration in the exploited coupe areas closed to grazing

EXPLOITATION.

SYSTEM OF MANAGEMENT.

141. The following statement shows the areas worked systematically under different silvicultural systems in different Ranges. Major Forest produce.

Range.	Simple coppice.	Coppice with Reserves.	Total.

SALE OF FOREST PRODUCE.

(a) By Departmental Agency.

MAJOR PRODUCE.

Timber

142. Out of 11 coupes demarcated in Range Chhabra 10 were taken up for departmental working as reliable and enterprising local contractors were not forthcoming of which only 6 could be completely felled for lack of sufficient labour. The produce was of inferior quality as the stock had been much ruined and hacked in unregulated fellings in the past.

Total sale of timber from coupes felled departmentally (including balance stock of the last year) as well as obtained from cutting demarcation lines amounted to Rs 2,255/-.

Firewood.

	Rs.	A.	P.

Charcoal

144. Three Satrukha coupes were taken up for Departmental charcoal burning as an experiment at Chhabra, but only about one third area could be felled for lack of labour and the supervising staff. The produce was burnt into charcoal at a cost of Rs 734/-. The manufactured charcoal could not be disposed of during the year as the arrangement for carting from the Forest to Railway Station Chhabra could not be made during the rains.

MINOR FOREST PRODUCE.

Grass

145. In all the Ranges the grass was mostly collected and sold departmentally. The income from this produce amounted to Rs 30,372/- against Rs 12,839/- of the previous year. The reason for the increase of Rs 17,533/- being that previously grass was supplied to the State animals free of charge and during the year under report it was charged for and proceeds credited to the Forest Department.

(.b) By purchasers and Contractors.

MAJOR FOREST PRODUCE.

Timber.

146. In Lateri Range 583 Bighas of teak area consisting of four coupes was sold to the contractors at an average of Rs 4/4/- per bigha which fetched Rs 2,484/-.

Income & expenditure.

169. Municipal income is principally derived from Municipal taxes. The State grants-in-aid, which varies from year to year and was Rs 16,947/6/- in the year 1347 Fasli, as against Rs 19,055/ in the preceding year. The total income from Municipal taxes and other sources as well as the total expenditure during the year amounted as below ;—

Total.	41,722	3	6	40,087	14	0

Municipal taxes.

170. The principal taxes are (i) Light tax, (ii) Slaughter tax, (iii) Tehbazari tax or the rent charged for Municipal land used by hawkers, vendors and pedlars etc. (iv) Hundabhara levied on hackney vehicles (v) License fees on hackney vehicles and from other bullock carts (vi) Road toll of the Banas river at a rate varying in view of the nature of the vehicle according to the sanctioned schedule. In addition to these, there are also other taxes levied as petrol shop tax, Nazrana of opening a new door and window, Bathi Chuna tax etc. etc.

The Municipal Committees are mainly responsible for repairs to Municipal Roads, conservancy, the lighting of public streets and public buildings constructed or maintained out of the Municipal fund, and for the management of Nazool lands situated within the Municipal limits. Besides, by virtue of the Tonk Municipal Act, 1939, subject to any special reservation made or to any special conditions imposed by His Highness, are the property of the nature specified below situated within the Municipalities vest under the control of the committees.

(a) all public town walls, gates, markets, slaughter manure etc.

(b) all public streams, springs and works for the supply storage and distribution of water for public purposes etc.

(c) all public sewers and drains, culverts and water courses etc.

Nazool.

171. All unoccupied sites whether situated in village abadies or in towns together with any houses left by persons dying without heirs are considered Nazool property. The Nazool property is also managed by the Municipal Committee and the income therefrom is considered a part of the Municipal income. Nazool property out side Municipal limits is under the management of the Revenue Department.

172. The Tonk Municipality dealt with 60 cases of the previous year and 204 during the year under report, of which 185 were finally disposed of while the Nimbahera Municipality dealt with 26 specially relating to Nazool. General.

Against orders of the Tonk Municipality 13 appeals were filed in the Municipal section of State Council Office, out of which almost all were decided by the Vice President (member-in-charge Municipalities)

In the Municipal areas sanitary conditions improved to a greater extent. The Tonk Municipality built 18 new urinals and the old ones were repaired. The Nimbahera Municipality encouraged the system of pulling pipes to house gutters successfully.

STATE PRESS.

173. During the year 1347 Fasli the secretary State Council was incharge of the State Printing Press under the the general supervision of the Vice President, State Council. The State Press has made much improvement in printing work and every sorts of work is done here, no printing work of the State is sent out-side because this press is self sufficient. All the forms of the departments, Court-laws, Stamps and fort nightly State Gazette are printed here. State Press.

The scheme of standardization of forms enforced this year and all the forms required by the State Departments have been standardized by the State Council. Now the press is responsible to print and supply the departments with these forms free of all charges.

The press has also to print extraordinary and special forms, required by the departments in extra time and the departments have to pay the cost of paper and overtime charges for this extra printing work. The system of payment of overtime charges has been introduced this year.

There is a Binding Section in the Press. All the registers and books for the use of the departments of Sadar Tonk are bound here.

In the year 1347 Fasli the total quantity of printing was 45,10,325 impressions and 27,518 volumes of registers, books and copies in different sizes were bound, for which the amount of printing and binding charges, according to the schedule rates, comes to Rs 10626/13/6 B. C. or Rs 11,955/3/3 S.C. As the printed forms are supplied to all State Departments free of all cost, this amount remained uncharged except Rs 423/3/3 S.C., which have been realised from Municipality, Special Court of Wards and public printing work and credited to the State Treasury.

During the year Rs 12,762/3/6 S.C. have been spent on different items of the press budget, details of which are given below :--

	Rs.	A.	P.
Establishment	5,832	7	0
Purchase of Type material	757	9	6
Purchase of Ink and Roller Composition	449	15	0
Expenses of Electricity	189	6	0

	Rs.	A.	P.
Repair of the Press	...	73	6 0
Furniture	...	47	0 0
Miscellaneous	...	403	5 0
Purchase of binding material	...	361	9 0
„ paper for printing of forms	...	4,126	13 3
„ Litho Stones	...	460	12 6
TOTAL.		12,762	3 6 S.C.

The amount given below should be deducted from the above total expenditure to compare with the total income of the press, because these expenses by no means are connected with the press :—

	Rs.	A.	P.
Price of paper used in printing of forms etc. which is paid by the press instead of Department.		4,126	13 3
Expenses incurred in despatching of forms to the pargana Departments which should be paid by Departments.		164	5 0
TOTAL.		4,291	2 3

After deducting the above sum the total expenditure incurred on the press work remained Rs 8,471/1/3 S.C.

The total of salaries has been increased by Rs 686/11/3 S.C. this year as compared with the last year. Out of this a sum of about Rs 600/- is due to the difference of the exchange rate of the last year and present year. In the past years, the press staff was paid in Kaldar Coin at the exchange rate of Rs 12/8 % and this year salaries have been paid in State Coin at the exchange rate of Rs 33/5/3 % this amount of Rs 600/- is also deductible from total expenditure.

If the amount of expenditure is reduced from the income the Press gets a profit of Rs 4,084/2/- S.C. for the printing and binding charges.

Last year the profit gained in the business of blank paper was Rs 3,581/5/3 B.C. and at the end of 1347 Fasli the amount of profit comes to Rs 3,912/14/6 B. C. It means that Rs 331/9/3 B. C. or Rs 373/-/3 S.C. were earned in the year 1347 Fasli. This amount should also be added to the net profit of the press income and then the total profit will be Rs 4,457/2/3 S.C. which is a reasonable profit in one year and reflects light on the hard labour and good work of the press employees.

Now all the printing machines of the press are turned by electric power and during the course of the year many times press work had to suffer by the failure of electricity.

For the supply of blank paper a contract was settled between the State and Bengal Paper Mill Co. which expires on the 31st May 1941. The State gained a reasonable profit this year in paper business through this contract, because the market rates of the paper had gone very high and the Company was bound to supply the paper to the State for the whole year at the rate given at the beginning of the year.

STATE GARDENS.

174. There were five important gardens under the control of the Home Member during the year under report.
